

# Syria

---

Even if Syria were not the next in line to be prayed for in the Spirit of the Covenant at this weekend's Saturday Holy Mass in the Original Shrine, and in tandem in several other shrines, it would still be an imperative to do so. However, Syria is next in line. It is from there that we are confronted on a daily basis with ever more massacres of sections of the population.

Is Schoenstatt present in Syria? We do know that among the English speaking communities in Berlin, Germany the picture of The Mother Thrice Admirable is known and loved and that hundreds of copies of the picture have been taken to Syria.

Therefore there can only be a resounding positive response: The MTA is in Syria! This is the same Mother who was not afraid to walk the roads of the Dachau Concentration Camp as she does today and every day in Syria on Visitation.

We appeal to her in our prayers and contributions to the Capital of Grace that we may identify ourselves in solidarity with Syrians and offer our hearts and minds to contribute towards peace, reconciliation, healing and full liberty for all Syrian.
